# McLELLAN WINTER ORCHID LIST

E. W. McLellan Co.,

San Francisco, Calif.

Picture on Cover: Typical Use of Orchids  
in the Home.

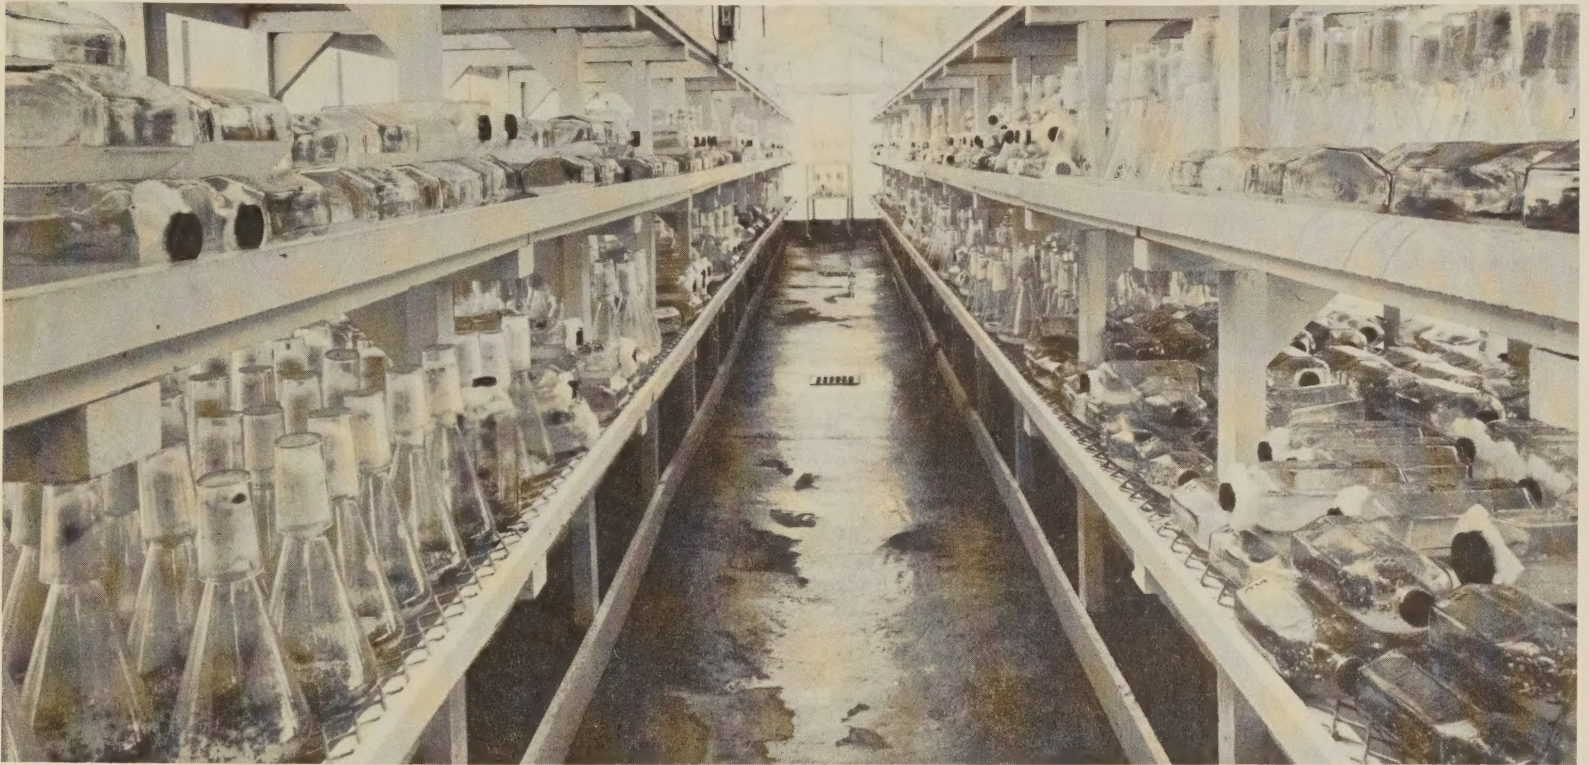

# E.W. McLELLAN Co.

BOX 289, COLMA  
SAN FRANCISCO 25, CALIFORNIA

## UNFLOWERED SEEDLINGS OF McLELLAN CROSSES

In our hybridization we have used the finest parents with the purpose of obtaining certain improvements such as vigor, color, texture, size, shape, production, and period of bloom. Although we have great confidence in the accomplishment of the desired results, there can be no guarantee of the outcome of any cross.

A SECTION OF OUR FLASK HOUSE

### Flasks

These are offered for the professional or amateur who is interested in starting seedlings from the flask. The price is based on the number of seedlings in the flask, and the minimum number is indicated below. A complete description of parentage is available upon request.

Note: If the agar is shaken up in shipment and mixed with the plants, the seedlings should be transplanted immediately.

<u>CROSS NO.</u>	<u>PARENTAGE AND DESCRIPTION</u>	<u>PRICE</u>
302	C. BARBARA BILLINGSLEY X C. BARBARA BILLINGSLEY white - winter ..... 150 or more seedlings	\$37.50
	200 or more seedlings	50.00
310	C. COWANIAE X C. NEBO colored - winter ..... 100 or more seedlings	25.00
390	C. MOSSIAE X (BLC. MERCIA, PRINCESS X LC. MOMUS CALYPSO) colored - spring ..... 100 or more seedlings	25.00
	150 or more seedlings	37.50
	200 or more seedlings	50.00
406	C. METAPAN X C. METAPAN colored - spring ..... 100 or more seedlings	25.00
	150 or more seedlings	37.50
409	C. MONMOS X LC. MEM. HELENE AMMENHEUSER colored - late winter ..... 100 or more seedlings	25.00
429	C. MOSSIAE X BLC. J. K. LILLY colored - spring ..... 100 or more seedlings	25.00
	150 or more seedlings	37.50

<u>CROSS NO.</u>	<u>PARENT DESCRIPTION</u>	<u>PRICE</u>
454	C. CONCINNITY X C. BARBARA BILLINGSLEY white - late winter ..... 100 or more seedlings 150 or more seedlings 200 or more seedlings	\$ 25.00 37.50 50.00
466	C. MOSSIAE X LC. SUSAN colored - spring ..... 100 or more seedlings 150 or more seedlings	25.00 37.50
481	C. BEN NEVIS X C. BARBARA BILLINGSLEY white - early spring ..... 100 or more seedlings 150 or more seedlings	25.00 37.50
493	C. ROBLA X C. NEBO colored - early winter ..... 100 or more seedlings 150 or more seedlings	25.00 37.50
499	C. COWANIAE X C. ORATANI colored - spring ..... 100 or more seedlings 150 or more seedlings	25.00 37.50

## Communities

These plants are "over the hump" -- past the critical stage of care. From this point on their transplanting and growing is easier. The prices listed are for 3" pots containing 10 to 12 plants.

<u>CROSS NO.</u>	<u>PARENT DESCRIPTION</u>	<u>PRICE</u>
20	C. NATALIE DEKENS - Petals 5-3/4" x 1-3/4", white, labellum white with very pale X C. ESTELLE alba - Petals 7-1/2" x 2-3/4", white, labellum white with yellow throat - March Purpose: An excellent textured clear white with yellow throat, flowers winter through spring. This is expected to be a good producer with the vigorous growth and excellent keeping qualities of C. Estelle alba.	\$ 7.50
25	C. PAVLOVA, var. BALLERINA - Petals 6-3/4" x 2", white, labellum lemon yellow - May X C. ESTELLE alba - Petals 7-1/2" x 2-3/4", white, labellum white with yellow throat - March Purpose: A well shaped, excellent textured, large white with yellow throat - early to late spring. Both parents are good producers and vigorous growers.	\$ 7.50
32	C. JAVOTTE - Petals 6-3/4" x 2-1/2", white, labellum white, lemon yellow X C. ESTELLE alba - Petals 7-1/2" x 2-3/4", white, labellum white with yellow throat - March Purpose: To produce a white with yellow throat, of good size and shape, to flower from early to late spring.	\$ 7.50
67	C. APALACHEE - Petals 7-1/2" x 2-3/4", medium lavender, large orange-yellow X labellum - December LC. SARGON X C. DIANA X LC. SARGON X LC. VALENCIA - Petals 7-1/2" x 2-3/4", rich lavender, labellum crimson purple with gold throat - November. Purpose: A vigorous, Christmas blooming hybrid with exceptional large, dark flowers with yellow throat, with excellent shape and good production.	\$ 7.50
70	C. NEBO - Petals 6-1/2" x 2-3/4", medium lavender, labellum magenta with X yellow throat - December LC. ELISSA - Petals 7" x 3", rich rose magenta, labellum crimson purple - November Purpose: An excellent growing, good producing, medium to dark flowered hybrid for the Christmas season.	\$ 7.50
82	(C. DINAH X LC. MATADOR) - Petals 7" x 2-1/2", purple splashed, labellum rich rose X purple - August C. GENERAL PULTENEY, VAR. PERRINI - Petals 7-1/2" x 3-1/8", medium lavender with rich purple stripe, labellum crimson purple with yellow eyes - January Purpose: A large sized early winter flower with a distinct tendency to have well marked striped petals of good contrasting colors.	\$ 5.00
109	C. ESTELLE alba - Petals 7-3/4" x 2-3/4", pure white, labellum white with well X marked yellow throat - March C. BRUSSELS - Petals 7-1/2" x 2-1/2", pure white, labellum purple with orange throat - April Purpose: An excellent growing, fine producing white with colored lip for the winter and spring season.	\$ 7.50

LC. ATLANTIS, used in crosses #118, #133, #144 and others. Note fine flower production and excellent pod.

CROSS NO.	PARENT DESCRIPTION	PRICE
118	LC. CHEVALIER - Petals 8"x3", dark lavender, labellum crimson purple - April X LC. ATLANTIS - Petals 8-1/4"x3-1/8", rose magenta, labellum deep crimson purple - January Purpose: A distinct improvement over present day spring blooming hybrids as to color, shape and growing characteristics.	\$ 5.00
133	C. MOSSIAE VAR. HAGER - Petals 8-1/2"x2-7/8", medium lavender, labellum ruffled dark Mossiae type - May X LC. ATLANTIS - Petals 8-1/2"x3", deep rose magenta, labellum rich crimson purple - January Purpose: A spring blooming, well shaped, better colored than average spring hybrid.	\$ 5.00
144	LC. BRITANNIA - Petals 7-3/4"x3", lilac mauve, labellum rich royal purple with old gold throat veining - April X LC. ATLANTIS - Petals 8"x3-1/8", medium lavender, labellum rich reddish purple - March Purpose: A large, well formed, dark flower with rich dark labellum having gold veining in the throat. We expect vigorous growth with a variable spring and summer flowering season.	\$ 5.00
163	C. PRISCILLA alba - Petals 8" x 2-1/2", white, labellum purple with yellow throat - May X C. MRS. FREDERICK KNOLLYS alba - Petals 8" x 3", white, labellum purple with good yellow throat - March Purpose: A large flowered white with colored labellum for the winter and spring season.	\$ 7.50
170	C. VARUNA - Petals 7-1/4" x 2-1/2", rose purple, labellum deeper rose purple - August X C. CREPUSCULE - Petals 7-3/4" x 2-1/2", glowing crimson purple, frilled ruby-purple labellum with golden throat - June Purpose: A strong growing exceptionally dark colored Cattleya for early summer.	\$ 5.00
172	C. PRISCILLA alba - Petals 8-1/4" x 2-7/8", pure white tipped with purple, labellum violet purple with yellow throat - May X C. BRUSSELS - Petals 8" x 2-3/4", pure white, labellum purple with larger yellow area extending into throat - April Purpose: A good producing, strong growing white with colored lip Cattleya for the winter and spring.	\$ 7.50
175	C. ANGELUS - Petals 5-1/4" x 1-3/4", pure white, labellum pale yellow - May X C. ESTELLE alba - Petals 7-3/4" x 2-3/4", pure white, labellum white with orange throat - March Purpose: A medium sized heavy textured white Cattleya for the spring season.	\$ 7.50
176	C. SAN PASQUAL - Petals 8" x 2-7/8", deep magenta, labellum very large crimson purple lip with gold eyes - June X C. VARUNA - Petals 8-1/4" x 3-1/8", deep rosy mauve, labellum darker rosy mauve - August Purpose: An extraordinarily strong growing early summer hybrid producing an abundance of large dark colored flowers.	\$ 5.00

## Seedlings in 1-1/2" pots

This is an ideal economical stage to buy seedlings, when the plants are established in individual pots and on their way.

CROSS NO.	PARENT DESCRIPTION	PRICE
4	C. LEDA SPLENDENS - Petals 5-1/4" x 2-1/4", rich rose magenta, labellum reddish purple with yellow throat - November X BC. HARTLAND - Petals 6-1/2" x 2-5/8", medium rose lavender, labellum fringed yellow - November Purpose: An excellent growing, well shaped, rich colored hybrid with Brasso type labellum and yellow throat, blooming in the winter.	\$ 2.00

CROSS NO.	PARENT DESCRIPTION	PRICE
25	C. PAVLOVA, var. BALLERINA - Petals 6-3/4" x 2", white, labellum lemon yellow - May X C. ESTELLE alba - Petals 7-1/2" x 2-3/4", white, labellum white with yellow throat - March. Purpose: A well shaped, excellent textured, large white with yellow throat blooming early to late spring. Both parents are good producers and vigorous growers.	\$ 3.00
33	C. MOSSIAE - Petals 6-1/2" x 2-1/2", medium lavender, darker labellum - May X C. CAJON - Petals 7-1/2" x 2-1/2", medium lavender, labellum crimson purple with yellow throat and eyes - May Purpose: A good producing, spring blooming, improved Mossiae type hybrid having large flowers with dark labellum and yellow throat.	\$ 2.00

## Other unflowered seedlings

We have not flowered these seedlings from other sources but are willing to sell a limited number. Full information is given to purchasers of these plants. The pot label shipped with the plant will indicate the originator.

## FLOWERING-SIZE PLANTS

Each plant's flowering history is recorded on an accompanying label.

### What Does This Label Mean?

The label which is marked: 6/15/48  
3 #2  
means that three flowers of #2 grade  
were cut June 15, 1948. A date without  
a flower record indicates the re-  
potting time

### How We Grade:

The width of the flower indicates  
the grade of the plant:

Up to 5"	No. 4
5" to 5-3/4"	No. 3
5-3/4" to 6-1/2"	No. 2
6-1/2" and larger	No. 1

Our prices are based on the size and quantity of the blooms, the size of the plant, and the number of leads.

From several very fine collections we have purchased, we are selling all varieties with less than 50 plants. Here is a selection to tempt the orchid enthusiast.

\*Note: Where two prices are shown opposite a pot size, intermediate prices frequently are available. It will save time in filling your order if you will state the range of prices within which substitution is acceptable in the event the variety is not available in the pot size and price you prefer.

		6"	15.00 - 30.00
		7"	25.00 - 40.00

An additional group of flowering-size plants containing one each of many varieties is not included here but is available at the nursery Orchid Sales Department. A listing of these plants will be sent on request.

## Species

Species, with their definite characteristics, well-defined blooming season, and wealth of bloom are the backbone of any collection. Due to the vigorous growth of species, many have grown them successfully in the home when no greenhouse was available.

<u>NAME</u>	<u>DESCRIPTION</u>	<u>SIZE</u>	<u>PRICE</u>
C. BOWRINGIANA - light lavender, small numerous flowers - late summer		5"	\$ 5.00
		6"	10.00 - 18.00
C. GASKELLIANA - light to medium lavender - late spring		4"	4.00 - 10.00
		5"	4.00 - 12.00
		6"	7.50 - 18.00

1 MILE SOUTH OF THE CEMETERIES

# MCLELLAN ORCHIDS

THE E. W. MCLELLAN CO., for 50 years the largest shippers of California cut flowers to the florists of the nation, offers orchid plants for commercial growers, orchid and garden hobbyists, and seekers of choice gifts for special occasions.

Tropical orchids, introduced into Europe in the nineteenth century as the treasure of kings, are now the hobby of thousands throughout the world.

The Cattleya species are gathered laboriously by natives in the high trees of the South American forests. Withered, dried, tattered and torn by their donkeyback and airplane trip, they are nursed in our greenhouses to the vigorous sturdy growth, typical of species, which has enabled many to grow them successfully in the home when no greenhouse was available. Their wealth of bloom makes them plants of which to be proud.

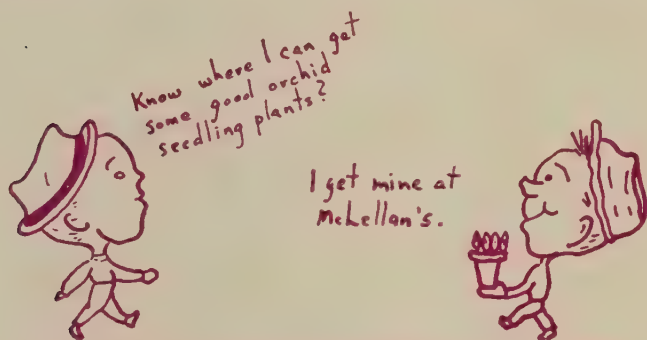

Through years of painstaking selection, the finest plants of the species have been crossed and re-crossed to obtain the strongest growth; finest color, texture, and shape; and abundant production of today's superb hybrid orchid. With careful selection continuous bloom can be obtained in plants suited to various growing conditions.

Baby Seedlings from these superior parents are transferred at about yearly intervals from laboratory flask "incubators" to pots containing several plants and then to individual 1½", 2¼", 3", and 4" pots. There they

bloom for the first time and continue to flower with increasing beauty each year as the plant gains size and vigor.

For the professional or amateur, whether casual purchaser or collector, we can supply every size from as low as 75¢ for baby seedlings in the flask to an

average of \$10.00 for blooming plants, and higher priced collectors' items.

There's the list of the descriptions and prices of the orchid plants at McLellan's. I asked them to send one.

A lot of people grow orchids these days.

Sales are made from 8:00 a.m. to 5:00 p.m. on weekdays and from 8:00 a.m. to 12:00 noon on Saturdays.

How better can you say:

"A MERRY CHRISTMAS"  
than with a blooming orchid plant?

"BE MY VALENTINE"  
in such a very special way?

"CONGRATULATIONS"  
than with an orchid plant blooming year after  
year on the anniversary?

"WELCOME, BABY"  
or wish "A HAPPY BIRTHDAY" any year?

"I LOVE YOU, MOTHER"  
and give her the thrill of her lifetime with a  
blooming orchid plant on Mothers' Day?

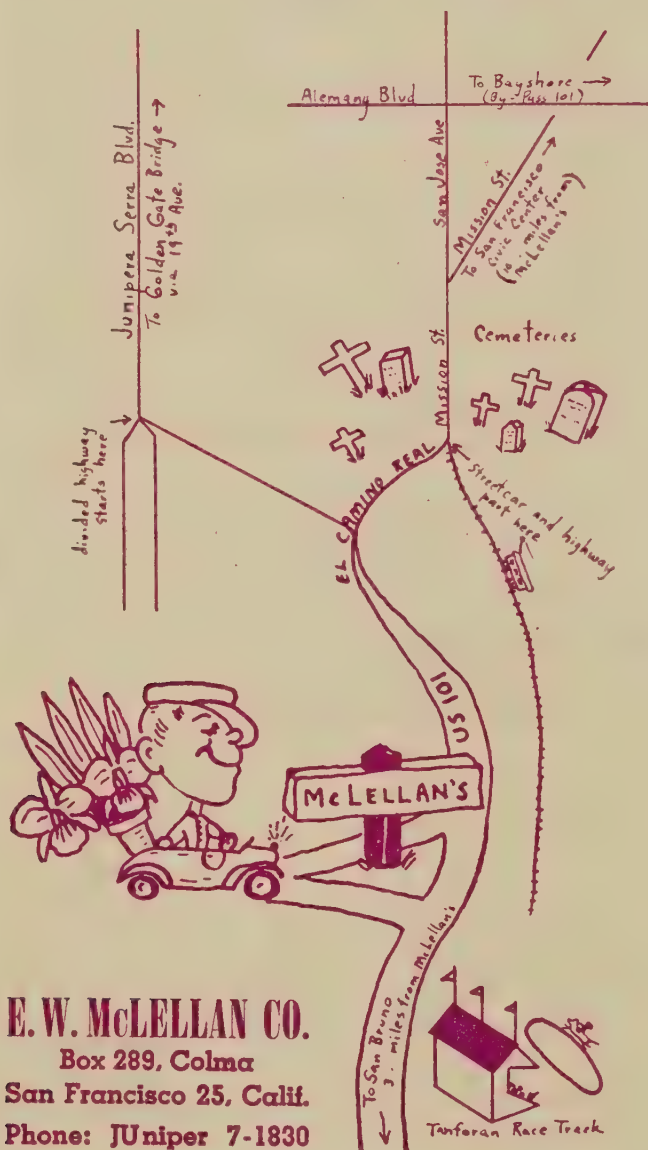

"GET WELL SOON"  
and let the shut-in watch buds crack open and  
develop into exotic flowers?

"THANK YOU FOR  
A LOVELY TIME"  
than with such a  
perfect gift, a  
blooming orchid  
plant reasonably  
priced, especial-  
ly appropriate  
for the person  
who "has every-  
thing"?

Tours of  
the nursery are  
conducted Saturday morning.

## HOW TO GROW ORCHIDS IN YOUR HOME

### LOCATION

Try to give the plants a northern exposure near a window. If that is not convenient, provide protection against any direct midday sun, possibly with Venetian blinds.

### WATERING

Water once a week with one cup of water for a six-inch pot, and proportionately more for larger pots. During summer heat spells, watering can be increased.

### TEMPERATURE

Cattleyas like the usual, comfortable living, home temperatures.

Odontoglossums do well in the cooler rooms, in the cool conservatory or sheltered porch.

Phalaenopsis should be kept in the warmest room or conservatory. They like a higher temperature than any of the other orchids.

Cymbidiums can stand more cold than any orchid. In the San Francisco area, Cymbidiums flourish in shady or protected gardens, in large pots in protected patios, or in unheated glasshouses.

Seedlings like the added humidity of our plastic case or humidifier in the home's warmest room.

### CLEANLINESS

The orchid plant can be kept clean by occasionally wiping all surfaces lightly with a damp cloth. DDT garden spray is all the plants would ever need, if at all, for control of thrip or scale.

### HUMIDITY

Plants can be set in an ordinary tray or flat bowl, or on wetted gravel or white crushed rock placed in the tray or bowl. This rock helps to give added humidity or the jungle atmosphere by the evaporation of water kept about the rock in the tray or bowl. At least one inch should be allowed between the level of water about the rock, and the bottom of the pot.

Caution: Orchid plants need no plant food or fertilizer!

### BLOOMING

From 5 to 7 days after flowers open, they are ready for picking. You can cut your own orchid corsage at this time without injury to plant or flower. On the plant they will last from 2 to 6 weeks without additional attention.

The orchid plant with its touch of the tropics makes it the unusual, ideal gift for the home of "those who have everything."

### REPOTTING

We will sow flasks or pot orchids for you.

We will supply everything for the job, including potting material and pots (everything but the plants themselves), at the following prices:

-Flasks, 1000 c.c. (your seed)	\$4.00
-Community Pots (plants from your flasks)	1.00
-Pots, 1½"	.15
2½"	.20
3"	.40
4"	.75
5"	1.00
6"	1.50
7"	2.00
8"	3.00

The seed or plants should be delivered or sent to our orchid range and left with us so that the potting or sowing can be fitted easily into our work schedule.

All seed and plants should be clearly marked and labeled, with written instructions for the potting or sowing desired if other than our accepted procedure.

In returning the plants or sending the flasks to you, if they are not called for at the orchid range, we shall use Railway Express, collect, unless we are advised otherwise. Shipping and packing charges are at cost.

### SEED SOWING

We guarantee flasks sown by us to be free from contamination 30 days from date of sowing. Delivery to our customer should be made within 30 days and thus any possible contamination after 30 days is the customer's responsibility.

At the time of sowing, we will furnish our customer an estimate of the percentage of fertile seed. Unused seed will be returned properly labeled and wrapped in filter paper and waterproof cellophane, in an absolutely uncontaminated condition.

Care should be exercised to insure proper care of seed in transit and that it is not too old to germinate. It should be as free as possible from spores that cannot be destroyed by sterilizing.

## BEHIND LOCKED DOORS

This apology came from "Ted" Burling, our new "B" night man who found himself locked in the orchid plant sales house early one morning and had not been told where the key was kept. Quotes from his note pinned to the broken glass are: "So sorry! This happened about 2:37 a.m. The door closed when I was inside and I couldn't find a way out, so I had to break the glass to open the door from the outside." (We'd probably have done the same thing, Ted, under those circumstances.)

## SPRING WORK BEGINS AT "H"

*By Homer Sanders*

With Garry McLellan having transferred to the Colma office the first of the year, Marcos Nevarez has begun working full time with the crew at "H".

Weeding, cultivating, and giving the heather plants a "hair-cut" (pruning, as we know it) are his first projects. And "Susie", having enjoyed a long rest while heather was being picked and packed, will once more take to the fields with the cultivator and Frank Madonna.

## NO MATTER WHAT, SANTA COMES THRU

*By Peggie Ann Wright*

Do you believe in Santa? Well, here's the story about Joe Osorio's little boy, Joe, Jr., and he certainly does!

Before a brightly glowing fireplace with his daddy sat little Joe, worried about Santa's trip through a chimney that was afire.

"Daddy," he asked, "how is Santa going to come down the chimney with a fire there?"

Joe, somewhat perplexed as to the proper answer, momentarily took care of the situation by assuring him that Santa would come all right, and then took advantage of the boy's first absence from the room to place all the toys near, very near, the flames.

About five minutes later, little Joe returned. "Oh, he did come!" exclaimed the lad, "and they're hot, daddy, they're hot!" (Being immediately salvaged, nothing burned, and little Joe's faith in Santa has grown even stonger.)

## NICE GESTURE

En route to the Hawaiian Islands, Mrs. Howard F. Weiss, of Madison, Wisconsin, recently stopped by to tell us of the pleasure she had received this year from the E. W. McLellan Co. heather packaged and shipped to department stores in Madison where she met, by chance, Rod's sister at the heather counter. She said heather is an unusual cut flower for that part of the country and certainly has been enthusiastically received there!

## ORCHID PLANT SALES REACH NEW HIGH

What a busy house was Orchid Plant Sales during the holidays! Ask Paul, Dan, or Herb who, collectively, surpassed all previous sales. Paul led with the highest, closely followed by Dan and Herb.

JEAN GOMEZ enjoys cutting those fine whites in Dan's house. (Picture by Bob Marshall)

Editor.....Marie Banister  
 Reporters.....Peggie Ann Wright,

 Marshall, Al Nevarez, Ollie  
 Olson, Cecil LaBarr, Mike La-  
 goda, Ed Moreland, Homer  
 Sanders.

## HAITI BOUND

*By Lillis Juvenal*

Everyone is buzzing with excitement over Helen Henning's new address which reads:

La Plantation Dauphin, S.A.  
 Cap Haitien  
 Haiti

Helen and Kay plan to leave late in January where Kay will manage a large sisal plantation. We eat our lunches over maps and literature of the West Indies and are mentally making the trip with them. Good luck from all of us in this new venture!

The shiny, blue 1949 Ford seen in the parking lot is one of the reasons for Cathy Hamlin's happy smile these days. But that isn't all! She just passed a box of candy announcing the expected arrival in May of a '49er. No, not another Ford but another Hamlin. Congratulations!

Herb Hager had another birthday and we another cake. It surely was good, Herb.

Bob Catto, of the lab, has another daughter. Miss Roberta Frances Catto made her debut Friday, January 7, at Children's Hospital in San Francisco, tipping the scales at 8 pounds, 7 ounces. She is Bob's second child. Both mother and daughter (oh yes, father, too) are doing nicely.

## COME ON . . . CAMERA FANS

This is "Marshall" week, it seems, with all the pictures being submitted by Bob Marshall. How about others sending in shots for publication?

## HE TOOK TO THE AIR WITH GREATEST OF EASE

Had we dropped by the studios of KFRC recently, we would have found our Bob Jones being interviewed by Norvell Gillespie, garden authority, who appears on a weekly radio program and edits a column in the San Francisco Chronicle.

With orchids as the subject under discussion, we know Mr. Gillespie picked the right man. (Take a bow, Bob!) According to Bob's report, the interview was fun and their conversation was recorded for transcription the following day. Were any of you privileged to hear the broadcast?

## BOILER ROOM SCENE OF LIVELY PARTY

*By Ollie Olson and Al Nevarez*

A tree with all its trimmings added gaiety to the boiler room during the holidays and party. Assisted by Mrs. Juvenal and Mrs. Henning (there had to be a feminine touch somewhere), Red Carlson served coffee and refreshments, and the party went off with a bang. Red didn't find Christmas Day so relaxing and much fun, though, when "M's" boiler called for several hours of his attention.

A SIREN AT NIGHT? That means trouble! So, Elmer, Frank DeVol, and Marcos came running one night the first of the year to investigate. It seems as though the clock must have had one celebration too many and forgot that it is only at eight o'clock in the morning and during the day that the siren blows and not at night. These holidays must have been hard on everyone!

"Duck hunting pays better than deer," says Angelo, who bagged his limit.

Anyone interested in knowing what a black widow looks like can step into the boiler room to admire a lovely specimen on display.

## "IF ONLY I HAD BEEN THERE . . ."

*By Mike Jagoda*

These might have been the thoughts of Elsie Archibald when her name was called at the Hayward Theatre recently and she was not in the audience to collect the \$200. Better luck in Richmond, Elsie, and all of us wish you happiness in your new home.

Favorite Christmas carols provided a pleasant atmosphere for the tailorettes during the holidays and at last, the long-awaited party took place. And what a menu! Salad, potato chips, olives, peanuts, pie, and ice cream satisfied us all. To climax the gay hour, the many gifts carefully concealed beneath the ornamented tree were brought forth to be exchanged.

Our many thanks to Evelyn Hodgdon for the grand table arrangement and serving the food.

Minnie Conn, her husband, and brother witnessed, but did not enjoy, the defeat of University of California at the Rose Bowl. "We were robbed of a touch-down" are the only comments she passed along to us.

Also during the holidays we enjoyed birthday cakes brought by Ola Mae Goodman and Delores Williams on December 15 and by Ethel Lutschan on the 23rd.

After spending nearly a year at Korea and Yokahoma with the Army, Marge Lindamood recently paid us a surprise visit.

## WINTER VACATIONS HAVE JUST BEGUN

*By Mary Elkins*

Hardly had the holidays subsided until winter vacations began. Mary Lepe plans only to spring houseclean but Lester McDonald chose to sunbathe and paint at Laguna Beach.

Betty Downie, according to recent cards from Scotland, is having a wonderful European trip.

## RAY PARKER ADOPTS SIGN LANGUAGE

By Bob Marshall

"Merry Christmas, Ray," we said.

There was no answer and we wondered why at first but soon noticed that Ray walked away from us, turned about face, pulled up one slack leg and then the other. The GREEN anklet seemed to say "Merry" and the RED one "Christmas". Unique, wouldn't you say?

Herb "Santa" Hager prompted all kinds of laughter and comment at the party for Orchid department. This you can readily know by the outfit he's sporting in the picture.

Not only was Herb the Santa, but he was also Chef, busily broiling the steaks for the real feast. Thanks to the excellent contacts Frank Raso has with a butcher and relatives who grow lettuce and other vegetables (those by the way, were obtained from adjoining premises in a short time), a grand party took shape and there was plenty for all. The women are to be thanked, too, for the table arrangement and other help they gave. Gifts exchanged at the end of the hour were small but not insignificant. What, do you suppose, did "Santa" get?

## THIS SANDMAN BROUGHT NO SLEEP

By Cecil LaBarr

It wasn't sleep that Tony Gusman brought, and if he looks tired it is because he has been hauling sand to the benches in 13W and 13E so he can do more potting.

With Loren Meigs having moved to Danville, California, Warren Flick has taken charge of the greenhouses in Propagating department and Cecil LaBarr now has the entire lathhouse under his care.

Proud as a peacock is Warren Flick who has a new Chevrolet. That feeling will be shared by Ross Billig soon as a 1949 Ford should roll off the assembly line any day now.

## YULETIDE FUN IN ORCHID ROOM

By Lillis Juvenal

Around a cheerfully decorated table gathered the office forces, department heads, and supervisors in the "Orchid Room" for a tasty Dutch lunch, enjoyed to the tunes of Christmas carols. Shortly thereafter jolly (Ed) Joy—ful Santa appeared with gifts for everyone. (See Esther Scriven for the latest in flower arrangement.)

## THREE ANNIVERSARIES IN ONE

By Grace Matthew

Bea Risco, Mae Miller, and Agostina Gioffre, all having birthdays in January, decided on January 4 to share a big cake with co-workers.

It seems as though the holidays were a time of eating for the tailoring department with, first, a Christmas party, an open house in Irene Hendrickson's new home, and a dinner at the Villa Chartier attended by most of the tailorettes.

## P, F, AND S COMBINE CHRISTMAS PARTY

By Clara Lee

Bob Jones proved excellent chef ability when his sizzling, juicy steaks made a hit with three departments. Steaks headed a menu of salads, pie, cake and coffee. Thanks to Warren and Paul for helping with the broiling that made the steaks so good!

With the girls from Seedling Department who helped in Heather and Tailoring during the holidays now back to their old jobs, the potting spree in houses 13 and 15 has begun. Many seedlings are being prepared for their removal to the orchid range; shortly thereafter, there will be much activity in 12E when our youngest will be shifted to larger pots.

## TO ALL ON-CALLERS OUR MANY THANKS

We surely appreciate, and want to thank, each on-caller who came in on short notice during the holiday rush to help us.

**EVEN SANTA** can be perplexed over Christmas gifts. His deep thought captured a fan's flair for unusual shots. (Prize to Bob Marshall)

**BLOOD DONORS**—Back row, left to right, are Benny Morrow, Rod McLellan, Butch Gomez. Front row are Peggie Ann Wright, Gwen Broome, Jean Gomez. (Picture by Bob Marshall)

## THE HOLIDAYS WERE FUN!

*By Peggie Ann Wright*

Thanks to Joe Osorio and Burnell Seefeldt, the greenhouse gang enjoyed ice cream and cake.

We welcome back Jimmie Anderson as checker on Saturdays and Sundays. Jimmie, who spent Christmas vacation from school in Minnesota, returned, deeming California to be even more beautiful than he first realized. He had a real chance to see it this time as he returned.

Congratulations to Burnell Seefeldt and Ed Noli on their excellent cuts from houses 1 and 3. And have you heard the latest? Benny Morrow is going to have (and don't take it wrong) new baby plants for house 9 soon. That's grand, Benny.

## SUGGESTION TALLY FOR 1948

During the past year, 109 suggestions were submitted with 39 of them being accepted, making a total of \$105.50 paid to the contributors of these ideas.

## THEIR GOOD DEED FOR THE DAY

Recently, the following people visited the San Mateo Blood Bank, giving of their blood to establish credit for Ray Kirke, our nightman who has undergone several operations and blood transfusions: Gwen Broome, Peggie Wright, Benny Morrow, Rod McLellan, Butch and Jean Gomez.

Only a short time before, Kathleen Butler gave blood to the Irwin Memorial Blood Bank in San Francisco, and her donation has been transferred to Ray Kirke's credit. This makes a total of seven pints to his credit and if he does not use this amount, the remaining credit will stand indefinitely for use by members of E. W. McLellan Co. or their immediate families.

If anyone is interested in making donations, please contact Mrs. Juvenal for an appointment. The company will arrange transportation for the donor who will be paid while away from work for this good cause.

## B. JONES IN LIMELIGHT WITH ORCHID SOCIETY

Bob Jones has just completed his second year as President of the California Orchid Society. Under his tutelage, the membership has grown to 1200 which is some sort of record, we believe, as the membership is the second largest in the world.

In a blaze of glory, the winter issue of the ORCHID DIGEST pictures our Bob in grand style, presenting prizes to various members. It also shows Herb Hager as one of the judges at the annual meeting. (Maybe that is one of the reasons we took most of the first prizes! Don't get angry, Herb; we know you couldn't judge your own exhibit.) Well done, Bob and Herb!

## NO NEW YEAR JOY IN FROZEN WATER LINES

*By Ed Moreland*

Could it be this cold in California? In any event, a common sight the morning of January 5 was steaming cars, frozen and bursted water lines. The maintenance crew and Red Carlson from "B" soon took care of the crucial situation. Even Mr. Weather Man can't get us down but he surely gets us cold!

With the Christmas parties, which were fun, and the flower rush over, we have settled down to routine work. Right now House A-2 is being changed, and several are looking forward to winter vacations.

Being an orchid plant salesman brought added pleasure to Dan Ciernick when invited by Mr. Price, one of his San Francisco customers, to accompany him on a trip to Los Angeles one weekend recently to visit the city and several orchid ranges.

December was a quiet month when it came to birthday cakes, but we surely enjoyed the three-decker celebrating Jaime Sandoval's anniversary.

6209

c 1949-5

In our hybridization we have used the finest parents with the purpose of obtaining certain improvements such as vigor, color, texture, size, shape, production, and period of bloom. Although we have great confidence in the accomplishment of the desired results, there can be no guarantee of the outcome of any cross.

Terms:

All purchases are Cash or C.O.D., unless credit has been established.

California customers, please add 2-1/2% State Sales Tax.

Large orders are discounted as follows: Individual orders over \$250 carry a 10% discount; those over \$1,000 carry a 20% discount.

Shipments will be made by Railway Express, f.o.b. Colma unless otherwise arranged. If there is the slightest indication of damage notify the Express Company at once - they are responsible. We are happy to replace any damaged plants but it is essential that you file an immediate claim with the Express Company and get their inspection certificate. This will permit us to be reimbursed by the Express Company for their damage.
